

# iNPLAN<sup>®</sup>

Orchestrating  
aligner treatments

**ORTHOiN3D**  
Future of Orthodontics

# iNPLAN<sup>®</sup>

platform is the key for orthodontists who want to create their own brand and regain independence by producing aligners in-office. iNPLAN enables optimization of aligners production and gives each of the practice stakeholders a real-time vision of the workflow.

## Regain Independence

**Choose the treatment planning software you prefer**

Simply upload the STL files into our secured iNCLLOUD

**Establish your own marketplace**

Create a network of practitioners you work with to produce their aligners. iNPLAN fosters collaboration, allowing you to orchestrate production workflow with other practices..

# Orchestrate Your Production

## At the pace of the treatment plan

iNPLAN gives you a complete overview of individual patients' treatment plans and guides production of the correct number of aligners for the next appointment.

## Empower your teams

From 3D printing to labelling, teams have a real-time view of the complete workflow, allowing them to organize their activity and easily handle any schedule changes.

# Ensure Traceability

iNPLAN automates the printing of labels for each aligner. You save time at every step and ensure traceability.

# Create your Own Brand

With iNPLAN, your own logo appears on the labelling. We support you to be recognized as an Orthodontist, manufacturer of aligners.

## ▷ Custom Made

### Hone your operations

Wanting to establish your own production or to reach the highest standards of quality ?  
The **iNTEAM** will select and implement the processes best adapted to your situation.
